INVITATION TO JOIN THE CIE 2019 IN BERLIN

Dear esteemed colleagues and friends,

The Challenges in Endourology meetings have been initiated in 2000 to offer an innovative and up-to-date programme in the field of endourology, to demonstrate through LIVE surgery cutting-edge technologies, and to broaden the horizons of its attendees.

Following a successful organization in Amsterdam this past June, the "Challenges in Endourology" will move to Berlin for its 9th edition and will be held at the Marriot Hotel from June 16th to June 18th, 2019. With a record number of participants expected this year, we are delighted to see that these annual conferences are becoming larger more substantial every year.

For the 2019 meeting, we are planning a highly educational programme, including a variety of session types, among which workshops and LIVE and SEMI-LIVE surgery sessions that stand out for their educational value. No less important is the opportunity given to delegates to present their own work through the flagship poster and video sessions, chaired by eminent experts in the field, as well as a special session dedicated to "nightmare cases".

We are certain that you will support this 9th edition with the same enthusiasm and that Berlin will become the meeting point for everyone interested in the field of Endourology next June.

On behalf of the Organizing Committee I cordially invite you to become one of the outstanding members of our friendly team in this engaging Meeting in 2019.

The Meeting Chair

Professor Jean de la Rosette

AMC University Hospital,
Amsterdam, The Netherlands;
Istanbul Medipol University, Turkey;
General Secretary,
Société Internationale d'Urologie (SIU)
