**The National Mexican College of Urology** was founded in 1973, we celebrated our 45 Anniversary in 2018. Our purpose is the permanent development of Urological Scientific knowledge through research and continuing medical education. Nowadays, we are 820 active members distributed throughout the country. The College is currently recognized by several International Urological Associations such as the European Urological Association (EUA), the American Urological Association (AUA), the International Urological Society (IUS) and the American Confederation of Urology (ACU).

It is noteworthy that the **World Congress of Video Urology and Advances in Clinical Urology** has established as a recognized international conference in the field of endourology which enables physicians to learn, evaluate, and implement new surgical techniques and technologies in their surgical practice.

**Cancun** is located in Quintana Roo, where Mayan culture shines on every corner. Surrounded by the breathtaking Caribbean Sea, soft coral sands, and the striking shade of blue that emerges from its crystal-clear waters, a visit to Cancun will make you wonder whether you are in a dream or else.

The splendorous and mystical ruins will take you on an incredible journey back to the Mayan civilization. The archaeological zone of El Rey or El Templo del Alacrán (The temple of the scorpion) will amaze your eyes, and if you are into nature, you'll love Xel-Ha, a natural aquarium that will make you feel as if you are waking in a dream.

We hope to count with your presence

The international airport, which is 20 minutes away from the venue, has great connectivity with direct flights from all over Latin America, US, Canada and Europe.

The organizing committee has prepared a high level academic program, invited a remarkable roster of speakers and of course a social program that highlights the traditional Mexican cuisine, all together to enjoy the friendship of our people.
